

FAR-INFRARED HEATING
MANUFACTURER
“Energy Efficient Heating”

Curved Portable Heater

The curved portable heating panel is a great solution for mobile, far-infrared heat to your body.

As these heaters are small and can be placed in most places, all you need to do to power the heating panel, is to plug it in.

Making it perfect for single-occupant homes, flats or apartments where heating your whole living space is unnecessary.

They're a lightweight solution, with an elegant and arched design, to make them aesthetically pleasing to the eye. It is both child and pet-safe, with a built-in overheat protection sensor.

CURVED PORTABLE PANELS

Low 400W Energy Consumption

The portable curved heater uses a low energy consumption, helping you to keep warm with a low running cost. A cost-effective solution in comparison to other convective storage heaters in the market.

Direct Radiant Warmth

Far-infrared is naturally absorbed and emitted by humans. As such, the curved portable heater will radiate healthy heat to your body to provide extra comfort. Far-infrared is scientifically backed to promote positive health affects.

Surface Design:	Framed Polished Aluminium With PET Front
Heating Element:	Carbon Crystal Nanotech Ink
Material:	Aluminium
Construction:	Folded Aluminum Curved With PET Heating
Fixings:	Free Standing With On/Off Switch
Connection:	2-metre cable
Service Life:	5 Years
Warranty:	1 Year
IP Rating:	IP41

CURVED PORTABLE TECHNICAL DATA

Power Rated:	400W
Voltage:	220/240
Amps:	1.82-1.67
Heating Coverage:	4.83-5.85m ²
Temperature Range:	0/85°C
Overheat Protection:	120/130°C
kWh Per Annum:	936
Weight:	3 Kg
Energy Transfer:	98%
